Impala, Vanquish, Volante and Chimaera door styles are available in white only.

Variations in colour and patterns do occur to those illustrated due to manufacturing and printing limitations. The company reserves the right to change the product range without prior notice.

Entrance 44 mm Door Specification

The skins of the 44mm door slab are manufactured from GRP (Glass Reinforced Plastic). They are compression moulded to give a high definition panel design which offers an authentic timber appearance and the thermosetting process means they are unaffected by variations in temperature.

The stiles and rails are of a water resistant composite material and are bonded to the skins.

The insulating core consists of 100% CFC-free polyurethane which provides superior thermal performance and enhances the doors soundproofing.

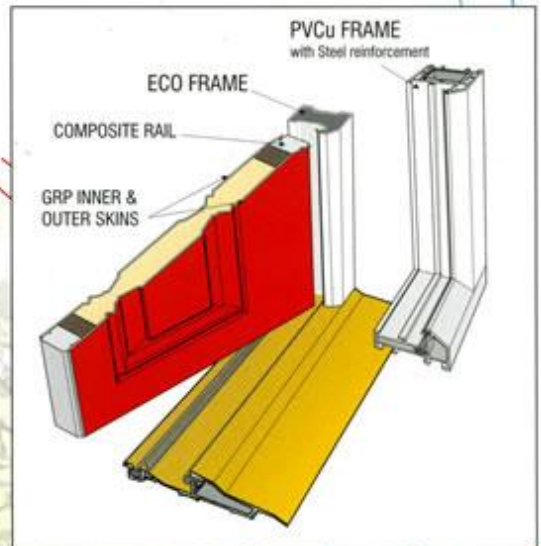

The finished product is a door panel which is strong, stable, durable, and is indiscernible from wood. When glazed and hung, it has passed the rigours of PAS 23 & PAS 24 and offers the perfect alternative to other products on the market.

PVC-u Frame

Halo System 10, 70mm profile incorporating the Exitex low aluminium threshold and 3 Haven 3D butt hinges, the Winkhaus Trulock featuring 2 hooks, 1 deadbolt and adjustable keeps, Fab & Fix heavy duty handles fitted as standard.

Eco Frame

Specially designed aluminium skinned 70mm profile using recycled material as the core. Incorporating the Exitex low aluminium threshold and 3 butt hinges, the Winkhaus Trulock featuring 2 hooks 1 deadbolt and adjustable keeps, Fab & Fix heavy duty handles fitted as standard.

- GRP internal and external skins
- Water resistant composite door rails
- Through Colour GRP skins
- Glazing cassettes with concealed fixings
- 100% CFC free Polyurethane Core
- Choice of frames
- Choice of thresholds

Ensuring long term stability, product Quality, security and increased choice for the customer
